Skills

- **Languages**: C++, C, Python, HTML, CSS
- **Frameworks**: Nmap, Wireshark, Zenmap, Metasploit, CIS Controls
- **Tools/Platforms**: Linux, Zorin OS, VMware Workstation, Kali Linux, TryHackMe, GitHub
- **Soft Skills**: Problem-Solving, Logical Thinking, Analytical Thinking, Decision Making

Projects

Phish Guard – AI-Powered Email Phishing Detection Platform *(link)* July 2025

- Built a web-based phishing-detection system that analyzes emails for malicious links and attachments.
- Integrated threat-intelligence APIs to provide real-time risk scoring and automated incident reporting.
- Developed a user-facing dashboard for monitoring alerts and viewing email security insights.
- Created an admin panel for centralized oversight, alert management, and team administration.

Tech: NextJS, JavaScript, React, REST API, Web Platform

RecycleBin Chatbot – AI-Powered Chatbot for Waste Sorting Assistance *(link)* March 2025

- Built an interactive chatbot to help users determine whether an item is recyclable, compostable or trash.
- Implemented the chatbot using Python with OpenAI's API to generate accurate, real-time guidance.
- Created a command-line interface for continuous conversation and quick user queries.
- Developed modular functions for sending prompts, processing responses, and handling user exit commands.

Tech: Python, OpenAI API, Chat Completion, CLI Tool, Automation, Conversational AI

Training

Cyber Security Essentials (Lovely Professional University) *(link)* June 2025

- Completed summer training in Cyber Security Essentials.
- Learned phishing, malware, network security, Linux, cryptography, and basic ethical hacking.
- Gained hand on experience with vulnerability scanning and traffic analysis.
- Performed security assessments using standard cybersecurity tools.

Tech: Linux CLI · Wireshark · Nmap · Network Security Tools · Cryptography Basics · Ethical Hacking Fundamentals · Vulnerability Analysis

Certificates

- Advanced Computer Networks | NPTEL, Swayam *(link)* April 2025
- The Bits and Bytes of Computer Networking | Coursera *(link)* September 2024
- Hardware and Operating Systems| Coursera *(link)* September 2024
- Advanced Mobile Marketing | SimpiliLearn *(link)* November 2023

Achievements

- **Participated in Smart India Hackathon (SIH)** September 2025

  Participated in a national-level hackathon, supporting real-world project development and team-driven innovation.

- **Secured 13th rank in the Hackathon: Republic of Cyber Sentinels** March 2024

  Participated and ranked 13th in the Hackathon organized by Encrypt Edge.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.76*** *Since August 2023*
- **Mangal Seminary** Motihari, Bihar
  Intermediate; ***Percentage: 70%*** *April 2021 - March 2023*
- **Kendriya Vidyalaya No. 1** Sadar Bazar, Delhi Cantt
  Matriculation; ***Percentage: 60%*** *April 2016 - March 2018*
